About the Subway® brand:

The Subway® brand is the world's largest submarine sandwich franchise, with more than 42,500 locations in more than 113 countries. Headquartered in Milford, Connecticut, the Subway® brand was co-founded by Fred DeLuca and Dr. Peter Buck in 1965. That partnership marked the beginning of a remarkable journey, which has made it possible for thousands of individuals to build and succeed in their own business. In 2017 the Subway® brand embarked on a sugar reduction programme and together with our beverages partner PepsiCo/Britvic, we have taken out 4 billion calories from our GB customer's annual consumption, per store, this means almost 2 million calories annually have been removed. This represents an overall 30% calorie consumption reduction from drinks sold in Subway® stores.

In the Republic of Ireland and Northern Ireland, nearly 300 million calories have been removed from our Irish customers' consumption from Subway® stores (ROI & NI). Per store, this means almost 1 million calories annually have been removed. This represents an overall 15% calorie consumption reduction from drinks sold in Subway® stores (due to different product mix). We are constantly looking at ways that can reformulate our menu to offer customer a choice of foods that are the best they nutritionally can be at an affordable price.
